The better the question. The better the answer. The better the world works.

EY ifb
Finance and Risk
Transformation

Graduates Digital Transformation (f/m/d)

Throughout Germany

As one of the leading consulting firms for compliance, financial and risk management, EY ifb offers innovative services and the latest IT support to banks and insurance companies worldwide. With our professional expertise and over 30 years of experience, combined with our ability to successfully implement solutions, we are among the most successful providers in this field.

What you can expect - enriching experiences that will last a lifetime

As a consultant (f/m/d), you will receive an intensive introduction to both technical and subject-specific topics by our Excellence Program, along with other university graduates. After this preparation for your future consulting function, you will assume a wide range of tasks, including:

- ▶ You will benefit from our culture of "open doors," which is characterized by trust, cooperation, and innovation, and continuously expand your EY ifb network.
- ▶ You will apply your knowledge directly to projects and use the individual leeway, high quality standards, and ever-new challenges of the projects for your professional and personal development.
- ▶ You will analyze business-related problems based on your well-developed mathematical and technological understanding.
- ▶ You will participate in the development of customer-specific IT solutions.
- ▶ You will implement statutory requirements in accounting and supervisory law, as well as digital transformation in corporate control, using state-of-the-art technical solutions.

What we are offering - an inspiring work environment

We understand that providing first-class service to our clients starts with satisfied and motivated employees. That's why our range of benefits includes flexible working arrangements, the freedom to choose your place of residence, international assignments and training opportunities, company events, as well as discounts from well-known brands and providers.

What you can contribute - skills for shaping the future

- ▶ A good university degree (Bachelor, Diploma, Master, PhD) in Computer Science, Physics, Mathematics, Business Administration or a related field.
- ▶ A strong analytical mindset and enjoyment of creative, independent work.
- ▶ The ability to grasp complex issues and concepts.
- ▶ A strong interest in technology.
- ▶ High degree of flexibility and resilience.

Become part of our Highest Performing Teams!

If you're ready to make an impact, then become part of our team. Apply now via our job portal: <https://ifb-jobs.com/de>. For more information about the application process at EY ifb, please visit our career page. Natalie Kleefisch will be happy to answer your questions at +49 221 277929 - 824.
